

Bench mount PDU

Picture shows BM13A/6F

- Available with UK, C13 or Euro sockets
- Tough aluminium extrusion
- Steel legs with screw hole fixing
- 3-metre 3x 1.5mmsq lead to 13A or Euro plug
- C14, C20, 16A plug options

The bench mount PDU is ideal for tougher working environments such as a workbench or Laboratory, the sockets are not individually fused so a power drill or heat gun etc can be safely plugged in.

The mounting brackets include fixing holes allowing the unit to be screwed securely to the work surface where required.

Standard Bench Mount PDU's
